Subject: CSA Monthly Report – July 2014

Please find attached the CSA report for expenses and projections through the end of May which still shows us slightly under our budgeted amount for FY14. Since we have entered the new fiscal year, we will still be receiving bills for services provided during May and June; however, they are included in the projections Letitia has provided. As a reminder, Letitia operates out of two fiscal years between the months of July – mid-October due to the nature of the program and when the CSA financial year closes.

I have also included a copy of the Audit Correction Plan as promised. The plan was due by July 3rd and was submitted June 26th. I have not heard from our auditor to see if the plan was accepted. I will provide that feedback as soon as I receive it.

Please read over the attached reports and let myself or Letitia know if you have any questions and as always, thank you for your continued support.

DATE: February 3, 2014
SUBJECT: CSA Monthly Report - February 2014

Attached, please find the CSA Monthly Report for expenses incurred through November, 2013. Currently, we show our expenses paid-to-date and projections based on open cases to be under our budgeted amount. Our team continues to work hard to ensure our children and families receive the necessary services as well as remaining within our budget. As always, we will keep you updated on major changes that may affect the budget as the year progresses.

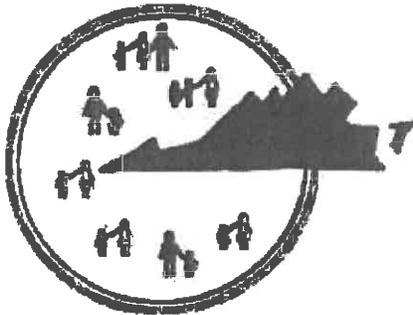

I would like to take this time to provide you an update on the CSA Audit that is in progress. We have received the preliminary draft report (attached) from our auditor, Stephanie Bacote. We are currently working with our partners to provide information that is needed as well as developing policies that were recommended by Ms. Bacote. Once we have completed all of our work, Ms. Bacote will return to Orange for an official final report. We will let the Board members know the date and time of that meeting in the event you would like to attend.

Please read over the attached report and let myself or Letitia know if you have any questions and as always, thank you for your continued support.

MANAGEMENT DISCUSSION POINTS (PRELIMINARY DRAFT)

Prepared By: Stephanie S. Becota Date Prepared: 1/22/2014

Discussion Point #:	1-1	Final Disposition: <input type="checkbox"/> Verbal <input checked="" type="checkbox"/> Report <input type="checkbox"/> Dropped
Cross References: Section D1 Summary		Explanation for verbal/dropped:
Condition/ Control Weakness	<p>Adequate measures have not been established and/or implemented by the Orange County CPMT to evaluate and ensure accountability and effectiveness of the locally managed CSA program. Opportunities for improvement were noted based on instances of non-compliance with CSA statutory requirements and internal control weaknesses identified as follows:</p> <ul style="list-style-type: none"> The Orange County CPMT has not coordinated and documented a formal long-range plan that includes an assessment of the current risks, strengths, and needs of the existing program. The CPMT has not explicitly defined goals, objectives, and strategies to promote and facilitate the direction of the local CSA program. The CPMT has not established measurable performance criteria based upon assessments of child/family outcomes and provider performance necessary for evaluating accountability and effectiveness of the local CSA program. Formal, written reports describing program utilization outcomes and financial position are not presented to the CPMT. The CPMT does receive a verbal account of financial position of the CSA program, which is not reflected in the minutes of the monthly meetings. Instead, formal reports are presented to Orange County Board of Supervisors (BOS). At the time of this review, the CPMT has not established its own similar criteria or entered into the formal records (meeting minutes) a review of the reports presented to the BOS. It should be noted that the information communicated to the BOS is publicly accessible with the minutes of the BOS meetings. <p>The ability and likelihood of the CPMT to adequately monitor and provide oversight of the local CSA program is an essential component of organizational governance. The absence of formal planning, coordination, and program evaluation to ensure that the goals and objectives of the program are met may affect the integrity of the CPMT's governance activities, maximizing the use of state and community resources, and ultimately local efforts to better serve the needs of youth and families in the community.</p>	
Authority/ Criteria	<ul style="list-style-type: none"> COV Section § 2.2-5206, Item 4; CSA Manual 3.1.5 Duties and Responsibilities; Toolkit <u>Coordinated Long Range Planning</u> § 2.2-5206 Items 6, 9, and 13; DOA ARMICS, Control Environment and Control Activities COV DOA Agency Risk Management and Internal Control Standards, Control Environment, Risk Assessment, and Control Activities. 	
Recommendation	<ul style="list-style-type: none"> The CPMT should coordinate with CSA stakeholder, develop, document, and implement a long-range plan to guide the locally administered CSA program. The process should include development of a formal risk assessment, goals, objectives, and strategies to direct the programs operations. The CPMT could initiate the discussion using information collected in the development the Annual Gap Survey. The CPMT should develop measurable criteria to be used for evaluations of program accountability and effectiveness. The CPMT should implement a process for ensuring that reports on utilization and fiscal position are formally presented periodically. The reports should become a formal part of the meeting records. The CPMT should also ensure that they establish the criteria for reporting elements to be presented.

Discussion Point #:	1-2	Final Disposition: <input type="checkbox"/> Verbal <input checked="" type="checkbox"/> Report <input type="checkbox"/> Dropped
Cross References: Section D1 Summary		<small>Explanation for verbal/dropped:</small>
Condition/ Control Weakness	<p>Opportunities exist to improve communication of the philosophy, ethics, goals, objectives, policies, procedures adopted and performance outcomes achieved by the Orange County CSA Program. There was little indication of how this information is communicated beyond the CPMT. Exceptions were noted with regard to the effectiveness of dissemination of information regarding program activities as follows:</p> <ul style="list-style-type: none"> • There is no formal education program to orient new and existing local CSA stakeholders (government agencies, families, providers, community) and ensure that they are afforded awareness of the responsibilities of CPMT, State requirements, local CSA policies and procedures, and performance outcomes of the program. Further, participation by CPMT and FAPT in continuing education specifically relating to CSA has been limited. • Documentation of the minutes of the monthly CPMT meetings was not prepared and approved timely. March '13 – August '13 meeting minutes were not documented until Oct. 9, 2013. For the months of February '13 and July '13, there were no minutes to review. Lastly, the minutes/agenda do not document CPMT efforts in monitoring, budgeting, and evaluation of operational and financial effectiveness. <p>The broader dissemination of information to all CSA stakeholders promotes consistency in awareness and understanding regarding accessibility to services, and also demonstrates high standards for sound fiscal accountability and responsible use of taxpayer funds.</p>	
Authority/ Criteria	<p><u>COV § 2.2-5200</u> Intent and purpose; definitions, Items A.4 through A.6 <u>§ 2.2-5206</u>. Community policy and management teams; powers and duties. Department of Accounts (DOA) Agency Risk Management and Internal Control Standards (ARMICS), Control Environment, Workforce Competence and Human Resources Development DOA ARMICS, Control Environment (Oversight by the Agency's Governing Board) and Control Activities</p>	
Recommendation	<p>The CPMT should implement a process to enhance communications with partner agencies, youth, families, and community stakeholders to promote the local CSA program and share information regarding the program's policies, procedures, philosophy, ethics, goals, performance, budgeting, etc. Suggested actions to be considered may include, but not limited to, the following:</p> <ul style="list-style-type: none"> • Utilize the existing website for ongoing distribution of information to the public and community stakeholders (population served, annual expenditures, or costs per child, successful financial/program outcomes). • Include reporting of performance outcomes as a standing agenda item for CPMT meetings. • Utilize surveys to solicit stakeholder feedback. • Publications (e.g. pamphlets, newsletter, articles, publish public meeting minutes) • Periodically assess the training needs of CPMT, FAPT, and community stakeholders. Based upon assessment results, develop and implement a formal training agenda. At least annually, report on continuing education acquired/provided by CPMT and FAPT members as well as participation by community stakeholders (i.e. parent representatives, private providers, etc.).

Condition/ Control Weakness	<p>The policies and procedures governing the Orange County CSA program do not adequately address intensive care coordination (ICC) and collection of information pertaining to special education students. Specific instances observed were noted as follows:</p> <ul style="list-style-type: none"> • Policies and procedures have not been developed to govern ICC services as required by the Comprehensive Services Act. An agreement with the CSB was drafted in Sept. 2009, was never signed, and has since expired effective Dec. 2009. • The CPMT has established a process for collecting and maintaining data on students receiving congregate or private day education services. However, the process has not been formally documented and adopted by the CPMT as the local procedure. <p>As a result of these circumstances, compliance requirements of CSA are not being fully met. Further, there is increased risk that existing practices are not always consistently applied.</p>

Recommendation	<p>The Orange County CPMT should adopt written procedures governing ICC and the collection of information pertaining to SPED students. Further, the CPMT should implement a process for managing procedure reviews to ensure policies and procedures are developed and documented in accordance with CSA requirements. This process may include, but not limited to, documentation of the following: effective dates, evidence of periodic reviews, mandatory dates for updating procedures, and CPMT approval of adopted procedures.</p>

Condition/ Control Weakness	<p>Documentation of service planning activities requires strengthening to ensure compliance with program requirements. Eight case files were examined to confirm that required documentation was maintained in support of and to validate FAPT and /or multi-disciplinary team (MDT) referral and CPMT funding decisions. The results of the examination, identified opportunities for improvements based on the following:</p> <p>Client case files did not always contain sufficient information demonstrating compliance with CSA requirements key to coordination and service planning by FAPT. Documents missing from case files reviewed included: (1) CANS assessment applicable to the period reviewed, (2) consent to exchange information, (3) IFSP data elements necessary for service planning were omitted, such as presenting problem, child/family history, child/family strengths, and clearly defined service dates (4) vendor contract/treatment plan/progress notes, and (5) parental co-pay assessment. Observed exceptions in 7 of 13 case files reviewed.</p> <p>Insufficient data collection and poor document management in service planning may lead to increased operational and fiscal inefficiency and ineffectiveness of the local program. Further, this condition fosters an environment that makes the program more susceptible to potential loss of accessibility to State funding in support of local programs as a result of non-compliance with CSA statutes regarding service planning and access to pool funds.</p>		
Authority/ Criteria	<ul style="list-style-type: none"> • <u>§ 2.2-5208</u>. Family assessment and planning team; powers and duties. Item 5 • CSA Policy Manual Section 3.5 Records Management Tool Kit, <u>CPMT Guidelines for Records Management</u> and <u>CSA Documentation Inventory</u> • CSA Policy Manual Section 4.3.5 Provision of Services • COV DOA Agency Risk Management and Internal Control Standards, Control Environment and Control Activities. 		
Recommendation	<p>Prior to service planning, the CSA Coordinator and the FAPT should verify and obtain copies of completed CANS assessments and current consent to exchange information. The CSA Coordinator should also ensure that sufficient data is collected and documented to evidence the requirements of service planning activities are met, and that correspondence is maintained in the client case file in order to substantiate services recommended to CPMT for funding authorization. Lastly, periodic case file reviews should be performed by someone other than the CSA Coordinator to establish quality control of client records and to ensure compliance with CSA statutory requirements.</p>

Condition/Control Weakness	<p>Client specific utilization reviews are performed in coordination with FAPT service planning activities. However, a formal process documenting utilization management activity has not been implemented, particularly around monitoring the utilization and performance of residential placements. Utilization management reviews are pertinent to informed decision making responsibilities of the CPMT, which includes:</p> <ul style="list-style-type: none"> • develop and implement strategies for returning children placed outside of the Commonwealth, • preventing placements, and • reducing lengths of stay in residential programs for children who can appropriately and effectively be served in their home, relative's homes, family-like setting, or their community.

Recommendation	<p>The CPMT should develop and monitor implementation of the UM/UR plan once established. The CPMT should initiate a process that requires periodic reports on the status of UM/UR activities to be presented at the CPMT meetings. To ensure information provided is useful in CPMT decision making, the CPMT should identify required reporting elements. The CPMT could expedite this process should they consider adopting the <u>State Sponsored UM CSA Checklist</u> to meet the requirements, which may be modified to meet the specific needs to the local program.</p>

Affected transactions included payments where a mandatory and valid Child Adolescent Needs and Strengths (CANS) assessments or an Individualized Education Plan (IEP) could not be verified as completed. This condition was observed for 4 (30%) of the 13 client cases examined. However, the policy does not address the designation of a CPMT representative authorized to approve contracts and/or purchase orders. However, that the same vendor received payment distributions from CSA pools funds on behalf of the client served for rent on a property that was leased to the client by the same vendor that provided the mentoring services. The rent payments exceeded the amount payable for parent mentoring services. Thank-you for your continued support, as of 03/31/14, the projections are currently under budget. We will continue to monitor it closely. We will do our best to stay with our budget while providing the much needed services to the At Risk families and Youth of Orange County. In March, we opened 4 new cases. Total Foster Care placements are still slightly up from this time last year and our Residential placements are holding at 3 plus our Parental Agreement RTC placement. Group Home placements are holding at 6. Special Education (IEP) Private Day school placements have increased to 4.

As of March 31, 2014, we have provided services to 87 At Risk Youth/Families still up by 16 compared to 71 Youth/Families at this same time in 2013.

Total Foster Care funded by CSA: 29
