

SOCIAL DISTANCING ACTIVITY GUIDE

Just For Fun Format: Take this sheet and go around looking for the items, putting a check in the circle when it is found. See how long it takes you to find all of the items. Then, try making your own for your other family members.

Family Game Night Format: Give each family member or team a copy of this sheet. Set a timer for 10 to 20 minutes (make it long enough for the contestants to find some, but probably not all, items). Start teams at opposite ends of the house and announce the start time loudly enough for all to hear. At the end of the time limit, tally the amount of items found. Require the completion of the detail sections if desired (recommended for older children), and use this as a tie-breaker. Have fun!
