Our friends at Earthquest Inc. bring one of their amazing birds of prey to take a walk (or rather flight) with you. In this program, participants take a walk at Booster Park while an Earthquest educator teaches about hawks and what makes them so special. During the walk, Earthquest's flighted, non-releasable Red-Tailed Hawk will follow along. This program is open to all ages. We recommend families participate together to facilitate better discussion and understanding of these amazing animals. With that in mind, the fee is \$25/person or \$50/household (up to 4 participants, must reside together).
